## NEW POWER TO THE PEACEFUL

Created for the free of spirit, who revel in a reality where the real and ordinary blur with the stars and the dreamscapes. Inspired by the four elements and their companion star signs, we've crafted fragrances to match their traits and cosmic needs. Aromatherapy inspired formulations of skin-loving ingredients and essential oils to balance and restore mood to Celestial harmony.

### with peace - earth

Tune into your earth sign with a grounding blend of lavender, sage and patchouli, restore and revive your inner calm day to night.

### breathe - air

Busy of mind and breezing through life? Stop and breathe fresh energy in with palo santo, sandalwood and frankincense.

### restore - water

Still waters run deep. A scent for the compassionate; go with the flow of the tides with notes of ylang ylang and rose.

### rise up - fire

Fuel the fire of the passionate and spontaneous, with a blend of amber, floral musk and spice to uplift and ignite.

### balance

Top notes of mandarin and bergamot flow into a floral heart with geranium, ylang ylang and hints of leather resting on a soft woods base with patchouli and musk.
